CONVENT WILL PRESENT TALENT

Presentation Sisters Have Arranged Excellent Entertainment For Tuesday Night

The pupils of the Presentation Convent will present a very entertaining program Tuesday evening at Union Hall and many talented participants will take part. Many of the numbers are of the delightfully refreshing juvenile type, brimful of childish naturalness and charm such as the Japanese operetta and the little play "Doty's Dream" in which the children have received excellent training.

The older pupils will offer many beautiful musical numbers both vocal and instrumental which will reveal not only the talent of the young people but the superior education in music which they are receiving under the guidance of the Presentation sisters. Other members will include a comic recitation "Auction Extraordinary" by May Kearney, "Lady Judith's Vision" by Miss Mary Walsh, Shakespearean Appreciation by Miss Nessi and a Gavotte danced by the following graceful girls:

Celia Thomson, Marie Cook, Lorine Bancho, Annie Dowdall, Angelina Marmori, Constance Power, Alice Kehoe, Blanche Bianchini, Elsie Tenni, Irene Dowdall and Romilda DeMartini.

Do not miss this fine school entertainment.

SAD NEWS FOR FATHER MORAN

Bereft of Father and Brother Within a Week

The sad intelligence of the death of father and brother both in the same week has come to Rev. Father Moran by cablegram from Europe. Father Moran was much grieved by the news as he had visited his folks upon a recent European trip and from late letters knew them to be in good health. Their tragic death was a great shock to the eminent divine. His father was a civil engineer of note and his brother, twenty nine years of age was a brilliant young man of great promise.

Condolence is being bestowed upon Father Moran whose scholarly record and fine personality has already won him many friends in Sonoma valley.

DEATH TAKES OLD RESIDENTS

Mrs. Mary E. Maloney, an aunt of Henry Chauvet, died in San Francisco last Friday and was buried here on Monday. The Glen Ellen relatives and friends from here and Petaluma attended the obsequies. Mrs. Maloney was the wife of Patrick Maloney, mother of Geo. Malone, Mrs. Catherine Chase and sister of John Sullivan.

Robert Hill an uncle of R. B. Hill of Eldridge and one of the esteemed members of this pioneer family passed away last week in Washington at the venerable age of eighty years.

The Baccalaureate sermon for the graduates of the High School will be held at St. Francis church on the morning of Sunday, June 4th. Rev. T. Moran will deliver a fine sermon on "Character Building."

David Burris Draper, grandson of Mrs. Julia Burris, received the degree of Bachelor of Arts from Santa Clara University Wednesday.

THE FINE WAS A BIRD --A QUAIL?

Quail is sometimes defined as a bird and then again it means to tremble, to lose heart, to fear. It meant both for Christopher Clementi of Clements grill, the abode of epicures in this valley, for Clementi was charged with having quail, the most delectable of birds, in his possession out of season. Mon dieu! Clementi says he had no quail in his possession but at the hearing Mr. and Mrs. Hermann of Fetters swore that they had seen the quail and later found evidence such as feathers in the grill garbage can. The evidence was not produced but on the testimony of the Hermanns Judge Small found the Sonoma Valley resort proprietor guilty as charged and fined him \$50.00.

Monsieur Clementi had several witnesses in his behalf, among them the cook, Mrs. Rinaud and her husband who had been employed there. Their testimony was to the effect that no quail had been on the premises to their knowledge. Clementi claims that the case is a frame up but Judge Small declared that the witnesses for Lencioni the game warden were actuated by no other motive than to prevent hunting out of season as Hermann is a hunter himself. Frank Sprague represented Clementi and put up a strong fight for the friend of bon vivants, but the Judge was obdurate to the talk of fish or fowl or good red herring, and being satisfied that it was quail, imposed the fine. The minimum fine for the offense is \$25 and with the addition of another twenty five, came the quail which means to shrink, for Clementi quailed at the thought of coughing up \$50. He declared the fine was a bird but the bird was no quail. He has retained attorney James W. Cochrane and will appeal the case.

Mrs. M. E. Sherman of San Francisco, formerly an old resident of this Valley, was a visitor here Sunday. Mrs. Sherman is the mother of Will Sherman another Sonoma High School graduate now prominent in big business circles. Will Sherman is the manager of the Merchants Ice and Cold Storage Company.

WELCOME HOME PARTY WEDNESDAY

A welcome home surprise party was given at the hospitable Helberg home Wednesday evening in honor of Fred Helberg who has returned from San Francisco where he has been employed for sometime past. Mr. Helberg's many young friends rejoiced at the news that he had decided to come back to the Valley and resume his activities in social and business circles where he had been a popular leader so they arranged the jolly affair Wednesday to show their joy at his return. It was a complete surprise, for the guest of honor had retired for the night when the merry makers arrived. The family saw to it that he was soon on hand however to participate in the fine time which was in progress down stairs where thirty-five young folks were preparing to dance, play games, etc. Helberg received a rousing reception and the evening was most pleasantly spent with music, dancing and many interesting contests.

Elaborate refreshments were served and all who attended had a jolly time.

Among those present were: Misses Anita, Gertrude, Dorothy and Doreles Breitenbach, Dorothy Dobbel, Virginia Picetti, Myrtle Thomas, Marie Helberg, Helen Kerner, Marguerite Helberg, Mesdames F. W. Dobbel, A. Gale, F. Helberg. Messrs. Art Gale, Alfred and Jerome Jansen, Leonard and Clifford Thomas, James Gottenberg, Charles and Frank Groskopf, Russell and Rodney Prestwood, Harold Hotz, Carl Von Hacht, Joe Andrieux, Alfred Warriner, Carl Balthesberger, Louis Picetti, Geo. Leiser, Will and Fred Helberg, Fred Helberg, Sr.

The pretty marching numbers, kindergarten singing with motions and baby recitations by the cunning tots at Glen Ellen yesterday was a delightful treat and a credit to the Womens Club which arranged the program.

The little son of Mrs. Erlebach fell last Sunday while playing ball and dislocated his collar bone. Dr. Hays attended the lad.

Water Plant's Value Estimated at \$40,000

Commissioner Devlin Fixes Physical Value at \$22,051 Which Varies Slightly From Von Geldern Figure. Land Value and Water Right Testimony Taken

The Railroad Commission hearing in the matter of the application of the City of Sonoma for the appraisal of the plant of the City Water Works Company was held yesterday in the City hall before Commissioner Frank Devlin. There were present at the hearing beside the Commissioner, Engineer Armstrong for the Railroad Commission, Engineer Otto Von Geldern for the Water Company, former Panama Canal Commissioner C. E. Grunsky to corroborate Von Geldern's testimony and Frank Sprague Attorney for the water owners. Witnesses called to testify as to land values were Otto Wagner, W. W. Carter and R. Emparan.

Mr. Grunsky, whose big work in the civil engineering world makes him a most eminent authority testified as to the value of the water right.

The physical valuation of the plant as arrived at by Engineer Armstrong was \$23,810 and allowing 17.7 per cent for depreciation it brought the value to \$19,588 to which he added a development expense of \$1330 thus making a total of \$20,918. Mr. Von Geldern's figures did not vary much more than \$300. He set the physical value at \$24,494 allowed a depreciation of 10 per cent which brought the figure to \$22,051 to which he added \$1700 development expense, making a total of \$23,751.

In an effort to establish the entire value of the Sonoma City Water Works, Commissioner Devlin took the testimony of Otto Von Geldern who holds that the intangible value, namely water right has a distinct value, in this case estimated at from \$15,000 to \$20,000. Mr. C. E. Grunsky corroborated his testimony and agreed that the water value was a real value and in this particular the spring should be worth the amount submitted by Von Geldern.

The value of the land was argued at some length. Local real estate men estimated the arable land as worth from \$300 to \$500 per acre and the grazing land for the reservoir site at from \$75 to \$100 per acre. Based on these figures the land necessary to the purchase would be worth something like \$1200 or \$1500 but the value is yet to be determined by the Commission.

mission, all testimony on the matter being now before it.

The entire valuation will probably approximate about forty thousand dollars according to the testimony of the experts.

PROMINENT VISITOR

Viticultural Commissioner J. W. Jefferey of Sacramento was a visitor here Wednesday. He was in the Valley for the purpose of estimating the damage done the vineyards by the recent frost and will embody his finding in the bulletin of the Commission.

Mr. Jefferey came here from the Napa Valley where he found the damage very great and concluded that at least a third of the crop had been lost there. He reports many of the growers cutting back and that already the tender young shoots have sprung from the dormant bud and will probably produce a second late crop.

The price being offered for grapes will vary and may go to \$30 per ton on account of the shortage.

Commissioner Jefferey believes that the Kent wine bill when wine has been properly defined by the Pure Food body will be very satisfactory to California viticulturists. He thinks that the low tax on low percentage alcohol wines and the increasing tax as the alcohol percentage is greater, will be an ideal solution. The bill will put all Eastern wineries, many of whom are not listed now, under government supervision and will insure strict compliance not to be feared by California wine men but by spurious manufacturers.

Mr. Jefferey was formerly a newspaperman in Azusa, Southern California.

FINE CROP AT JONES RANCH

Despite the fact of early rains the crops on the Jones ranch this year are of exceptional quality and very valuable. Hay is now being cut and the yield is exceptional considering the season elsewhere. Six hundred acres of new reclaimed land are also being broken by tractors under the supervision of Chris Siever.

Decoration Day Pre-sages a New Era

Decoration Day at this time of world war is a holiday of more solemn appeal than formerly. The topic of war and peace of preparedness and kindred vital problems makes us alive to the fact that Decoration Day does not compensate for the heroism that was ever called for, let alone the sacrificial kind that modern warfare makes necessary. It would seem that the time of peace we have enjoyed wherein to perfect methods of warfare has almost eliminated the opportunity for real heroism so that the soldier of this age is more of a machine, an agency so to speak. Perhaps it is part of the scheme of evolution which is to ultimately eliminate the necessity for soldiers and when combined with the economic evidence of waste which war entails will make it less and less the means by which international differences will be settled.

We owe it to our fallen heroes to honor them and in the honoring there is liberated so much thought, so much helpful philosophy that will ultimately take the name of action, that the holiday is pertinent to the perfecting of our highest ideals. Each year it is taking on more virile character than sentimentality. We are coming to regard the great deeds of those who are at rest in the silent city of the patriots as the glorious and martyred foundation of the nation which is to solve the problem of peace with honor, power with preparedness.

On Europe's destructive philosophy of national ascendancy let us put the iron heel and out of her bitter experiences let us get the lessons (the material is all there) from which to build up our national defense, moral and material. A country as big and as rich as the United States of America can make itself practically inviolable provided we are alive to the necessity for it and mould our customs, our citizens and our activities to that end. A soft answer may turn away wrath but a big punch back of the soft answer which is conserved for the irresponsible rowdy or the savage has its place in the national as the individual physique. What is the opinion of the great big loose jointed nonentity whose affiliations are such that he does not have to be respected. Or the book worm that never turns? The opinion is poor and he is treated accordingly unless he has the whip hand of finance which goes to show that finance and economics are factors whose import is such, that when properly interwoven into the higher plan of policing belligerency, wonderful results may yet be recorded, a new era in progress come into being and the "pride, pomp and circumstance" of a more glorious war be America's gift to a higher civilization.

Still They Auto

Why don't the County own their cars?
 They auto!
 Why don't the County sell their cars?
 They auto!
 A garage bill
 Can surely eat
 It is a bird
 That can't be beat
 But poor officials on their feet
 It sure is meet
 To put them in an auto seat!
 Though gas be lean
 Or gas be fat
 Taxpayer, tush
 What of that!
 A model car's for model men;
 A hired car's a jitney pen!
 Nay buy a string of
 Auto class
 Lay in a lot of gassy gas.
 Tax Payer's rich
 His wife dont care
 Be not out done
 By millionaire.
 What ho they cost
 An awful lump?
 The very flea is
 On the jump;
 Be human
 Those upon the Board
 You wouldn't thank
 If they did hoard
 Taxpayers song should
 Always be
 Go just as far as you like
 With me.
 Of course with autos
 They'll go farther
 But little things
 Should never bother
 The model cars
 From you good people
 Shows class as tall as any steeple.

The narrow minded voters who want to put California vineyards and wines out of business by the passage of prohibition laws could be appropriately termed grapenuts.

All the District Attorneys of the State meet at Napa in convention this week. With so much brightness scintillating in the eyes of our neighboring town there should have been a special dimmer law for the occasion.

Petaluma thought it was funny because the State Editors referred to the "chicken orchards" of Sonoma County. Well now if our chickens are not peaches what are they?

Some one has written real poetry and sent it with flowers to the Supervisors. Now that is a fine contrast for at best all their enconiums are usually blank (yes blankety blank) verse.

Summary of the News Gatherer

Assistant District Attorney Ford was in town Wednesday.

Miss Victoria Robin has been visiting relatives here.

Attorney Wm. F. Cowan of Santa Rosa is able to be out after a serious attack of illness.

Z. Lane is having a fine system of irrigation installed on his place, the former Engler ranch.

Mrs. Horace Appleton and children who have been here prior to their permanent settling in Stockton have gone to Rockland on a short visit to home folks.

Mrs. L. H. Green who has charge of the ladies massage at Boyes this season is doing very well and is highly commended by health seekers at the big resort.

The vags who entered the Brewery two weeks ago and were charged with burglary were sent to the State asylum at Ukiah by Judge E. Seawell.

Peter Yenni went to Sacramento Monday to visit his brother, Adam who has been quite sick. Adam was formerly proprietor of a hotel in El Verano and has many Sonoma friends.

The little son of S. Canobio is still a patient at the sanitarium where a second operation had to be performed due to new complications, which developed after the appendix trouble.

The Parishaid was entertained by Rev. Mr. Holt Tuesday evening. About 25 members were in attendance. The next meeting will be at the Harry Foster home.

Mrs. Brereton of Vallejo, a daughter of Mrs. G. W. Estes, has been very ill. Miss Ella Estes, another daughter, is recently convalescent from a capital operation so the good mother has had more than her share of worry and has been at the two sick beds constantly.

John Tolliver, shoer of race horses and formerly in the employ of the J. R. Mackenzie racing stables at Pleasanton was in town the first of the week showing four classy horses belonging to Joe Ryan's celebrated string. They will negotiate some fast going this season both here and at Petaluma.

Rudolph Spreckels came up to Sobro Vista Saturday evening.

Mrs. E. Burmester of El Verano spent Sunday with her folks in Oakland.

Miss A. Firpo of Alameda is visiting her sister, Mrs. Ray Manuel.

Mrs. Harry Knight of Nichols, who recently underwent an operation for appendicitis is now convalescent.

Mr. and Mrs. N. R. Knight have been visiting Jack Knight and family of Tracy where the former Sonoma boy has charge of a big irrigation and subdivision proposition for wealthy land owners.

Martha Gordonker and her intended have purchased a lot in the Twin Peaks new residence section of San Francisco and will build there after their marriage which is to occur in the near future.

Peter Keil is said to have undergone an operation in the City and his many friends and acquaintances hope to hear of his speedy recovery.

Mrs. R. E. Murphy and daughter and Mrs. Felici Rovai and daughter were in Napa on business connected with the school entertainment last Friday.

The attention of our readers is called to the ad of the Palace Hotel. The Palace is a very popular Sonoma Hotel with the traveling public. The home cooking, meals at all hours, auto service and shower baths commend it to the tourist trade.

Horace Appleton has been transferred by Sherman & Clay from the management of the store in Portland to Stockton. He surprised home folks by coming in unexpectedly from the North Saturday night and the news of his new field was received with much joy. Horace is another Sonoma boy who has made good.

Mr. and Mrs. Robert Prussia were in the valley the guest of the Morris family over Sunday last. Bob Prussia was popular here among the younger set some years ago and is now a prosperous salesman for a large manufacturing concern.

ANOTHER MUNICIPAL WATER SYSTEM

In a report recently compiled by Secretary E. F. Verrill of the Burlingame Municipal water system, the secretary shows a gross amount collected for water since the system came into the hands of the city, amounting to \$48,000. The water system is now in splendid condition and is being run at a minimum expense. The regular salary roll amounts to but \$350 per month while the receipts for water during summer months averages over \$1200 per month.

The regular expense for salaries is one third less than the amount paid by a private corporation in a nearby city. This disputes the general claim that public work cannot be run as economically as private corporations. The improvements required to be made every year on account of street work, have taken a considerable portion of the gross earnings of the water system. Payments on the bonds annually falling due

have also been made out of the earnings. These two items consume the surplus earned by the water system and prevent a lowering of water rates at this time. It is quite apparent that the time is not far distant when water rates can be reduced to a figure that will show a great saving, and will prove the wisdom of the people in voting money for a publicly owned water system.

The water plant is yearly becoming a greater asset to the city. It generally takes from five to ten years for a municipal plant to show its real value and the water system here will in a very few years show advantages equal to other places and will prove a greater boon even then now. (Burlingame Advance.)

A "500" party for the benefit of the Womans Club house fund will be given at the beautiful home of Mr. and Mrs. Robert Poppe on the evening of June second. Score cards will be 35c including refreshments.

Clarie Goldie and Agnes Roache came up from the metropolis last Sunday to visit the O. Gerickes. Miss Roche stayed all week.

GRAND OPENING IS TONIGHT

El Verano Villa Will Entertain Big Crowd With Dancing and Other Entertainment

The twenty-first annual opening of El Verano Villa will be held tonight and Louis Lamotte, genial proprietor, will be on hand to welcome a record crowd to the popular resort which has grown from a small beginning to one of the largest and best known summering places in California. Established over twenty years ago by Mr. and Mrs. A. Nevaumont, it was one of the first resorts to draw attention to Sonoma Valley's advantages for health and pleasure and it has held its patronage and increased in popularity under the later management of Louis Lamotte who has improved the Villa and made it up to date in every particular. The fine new dance floor will be an attraction tonight and Fitzgeralds band will play for the dancing. Admission free and a fine time will be provided for all who attend.

CRITICALLY ILL WITH PNEUMONIA

Little Miss Clara Stonier, daughter of Mr. and Mrs. Stonier of the Hall ranch, has been lying critically ill with pneumonia under the care of two trained nurses.

The dread malady has been giving the fond parents of the little girl great apprehension for the past two weeks and they summoned Mr. Stonier's sister, Mrs. Amos Evans, president of the State Association of Nurses and Dr. L. Stone Swauger from Oakland, to attend her. The lady physician is a relative of Mrs. M. Stearns.

Anyone that is wise will understand the rap taken by a local paper at the candidate for Supervisor. The write up in the Index which was designated as obituary was nothing like it. When we write an obituary it will be like the one a certain candidate for Supervisor got some years ago after he had been killed off by the people of this district and it won't be wet either.

TRAVELERS IN AUTO WRECK

Two young men enroute from Los Angeles to Santa Rosa, narrowly escaped serious injury on the Highway near the Lowell ranch Wednesday afternoon in an auto accident. On the road they met Ralph Busby who was teaching Mrs. Koeborn to run her new roadster and in turning out for them the young fellows turned out too wide running their car into the guy wire of a telephone pole which caused the machine to skid and turn turtle. Both were precipitated to the ground and thrown against a barbed wire fence while the car hit the pole and was almost demolished.

Busby hastened to the assistance of the travelers who were suffering from numerous cuts and bruises and after summoning another car had the victims of the accident and their machine brought to town. After medical treatment, they went to the Palace Hotel continuing their journey the next day.

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.
For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

BIRTHDAY PARTY

Harry Burmeister gave a birthday party last Saturday which was greatly enjoyed by the fourteen young people present. His parents prepared everything for the reception of their young guests in a most charming fashion, the house decorations, prize birthday cake and beautifully decorated table, doing the hands of Mrs. Burmeister much credit.

After games and contests of various kinds, the boys and girls were paired to the dining room which under the soft rays of the electric lights all shaded in pink presented a very pretty appearance. In the centre was the table with pink crepe paper streamers extending from the chandeliers to each place where a dainty place card and souvenir bon bon box awaited each little guest.

Smilax, ferns and flowers festooned the snowy damask and a great birthday cake glittering with thirteen candles, was the crowning feature. Goodies galore including three gallons of ice cream were dispensed by the young host and the prizes in the cake caused much merriment.

Among those present were: Ruth Clements, Ida Saunders, Edith Crane, Ruby Block, Buster Dericke, Vivian Bruns, Janet Mann, Marjorie Bosseman, Alma Franquelin, Geo. Gale, Harry Bur, Norma Baines, Howard Marks, Henry Mitchell, Frank Block and Edwin Burmeister.

Judge Seawell has dismissed a "dimmer" case holding no specific violation of the law in the case of the Peoples Banker.

Vineburg, May 24, 1916

Hello Easy:

I hear that one of the Santa Rosa papers is going to give a cash prize to the school kid that writes up the best lines on Mary's little lamb. So you see I may be a little quick but I want to get in on the ground floor and win out so I can cash in. Then the Judges of the contest won't have to guess long. Well here we ramble.

Mary had a little lamb
With fleece as white as snow
And every place that Mary went
The fleas would always go.

It followed her to school one day,
And the teacher at it flew.
Says Mary if you touch that lamb
I'll knock the block off you.

But Mary was a christian child
And always done her duty
You bet she loved her little lamb
And called it "Sweet Miss Outie."

But Mary's was a foxy lamb
And always made a showing
For it was always on the job
And kept on growing, growing.

Mary had a social lamb
On the piano it would bango.
It joined the great Allegro Club
And learned to dance the tango.

But Mary noticed that her lamb
Was getting bad of late
It went to Martins everyday
And took its highball straight.

Soon Mary's lamb it got too wise
And started in a butting
She sold it to Sam Lewis
And he turned it into mutton.

That is no lie,
"Kid Niddles"
EASY JIM.

ROWELL HONORED

Principal M. H. Rowell of the High School received his Masters degree in Education from the University of California last week. Mr. Rowell prepared a most scholarly thesis.

The subject was "A Survey of Rural Schools of Napa County and Proposed Plans for Reorganization." The proposed plan advocated the changing of California school law whereby consolidation of districts would be compulsory and the office of County Superintendent be appointive instead of elective thus taking it out of politics.

His thesis was timely and forceful.

GRAND JURY ENDS SESSION

The recent Grand Jury brought in no indictment against Cloverdale officials although many witnesses were summoned and the alleged irregularities of city trustees selling supplies to the municipality were investigated.

The Grand Jury is said to have recommended the sale of the county automobiles and advised the supervisors to get rid of the official money eaters at an early date. Chairman Patterson declares that the sale of the machines has not been considered as the Board wishes to try them out at least a year and then make comparison of previous cost of transportation used in official business. In this way the utility and advisability of maintaining them will be determined.

There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, dizziness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

Killing Cooking Odors.

No odor of cooking should greet the guest in a private home or even an apartment which claims to be of the exclusive class. A simple and agreeable deodorizer may be made of a handful of cloves, allowed to scorch with bits of orange peel on a tin plate in the oven, says the Kansas City Star. This mixture imparts a fragrance not unlike that of carnations, and, scattered about the rooms, it will completely destroy the odor of cooking vegetables or roasting meats. In the country the wise housewife may gather sweet clover, and the sprigs, dried out, will impart a fresh and delicious fragrance to the house linens all next winter. Lavender, that standby of oldtime housekeepers, may be purchased in little bags at trifling cost and makes a delightful fragrance for the linen closet.—Exchange.

The Post of Danger.

The Sieur de Joinville in his memoirs of St. Louis tells us that a certain man, sore beset by the pressure of temptation, sought counsel from the bishop of Paris, "whose Christian name was William." And this wise William of Paris said to him:

"The castle of Mont'hery stands in the safe heart of France, and no invading hosts assail it. But the castle of La Rochelle in Poyton stands on the line of battle. Day and night it must be guarded from assault, and it has suffered grievously. Which, gentleman, think you, the king holds high in favor, the governor of Mont'hery or the governor of La Rochelle? The post of danger is the post of glory, and he who is sorely wounded in the combat is honored by God and man."—Agnes Repplier in Atlantic Monthly.

The Fourth Officer.

"I've been on a bridge of a ship since I was fourteen. I don't know how to breathe inside a house," he said. One has to lead some kind of life, and as I sat there thinking it occurred to me that, even if it was poorly paid and at times lonely, there was something very sane and useful and good about the life of the fourth officer. In a little while he would look at his watch and exclaim a trifle dubiously, but with an unmistakable resumption of authority: "It's 10 o'clock. You must go now." Then he would almost instantly fall asleep, sleep for four hours, spend four more alone with the trackless waters and the southern stars, bathe, breakfast and begin another day with a fit body, clear brain, steady nerves and untroubled eyes.—Flandran's Essays.

Constantinople.

Constantinople was known as *Lygos* until 658 B. C. when it blossomed forth into Byzantium and bore that name for close on 800 years. Byzantium, like Rome, was built on seven hills, and this resemblance led Septimius Severus to rechristen it *Nova Roma*. On making the city the capital of the Roman empire Constantine the Great bestowed his own name upon it, and ever since it has been known as Constantinople in the western world. This name, however, is ignored by orientals, who have called it *Istanbul* and *Stamboul* since its capture by the Turks in 1453.

Not Reading Matter.

"I won't pay one cent for my advertising this week," declared the storekeeper angrily to the editor of the country paper. "You told me you'd put the notice of my shoe polish in with the reading matter."

"And didn't I do it?" inquired the editor.

"No, sir!" roared the advertiser. "No, sir, you did not! You put it in the column with a mess of poetry, that's where you put it!" Exchange.

Indian Jugglers.

Magicians and jugglers were found among the Indians by the Jesuit missionaries as early as 1613, and they were common among all the Algonquin tribes, and Charlevoix mentions them among the Iroquois in 1635. The Spaniards met them in Mexico and South America.

Oil of Bergamot.

The world's supply of oil of bergamot comes from a comparatively small part of Calabria in the extreme south of Italy, fronting on the strait of Messina.

Schumann on Chess.

In music it is as with chess playing—the queen, melody, possesses supreme power, but it is the king, harmony, who ultimately decides.
